INTRODUCTION AND GENERAL INDEX

R.L. POLK & CO., publishers of more than 1,300 City and Suburban Directories, presents to subscribers and the general public, this, the latest edition of the City Directory.

Confidence in the continued growth of the city's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted.

The enviable position occupied by R.L. POLK & CO.'s Directories in the estimation of the public throughout the United States and Canada, has been established by rendering the best in Directory service. With an unrivaled organization and having had the courteous and hearty cooperation of the business and professional community and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the City Directory will fulfill its mission as a source of authentic information.

FOUR MAJOR DIRECTORIES

I. THE CLASSIFIED BUSINESS DIRECTORY is the first major directory, printed on yellow paper. This directory contains a complete listing of business and professional firms and organizations within our canvass area, arranged in alphabetical order under appropriate headings. Included are: officers, owners, principals, number of employees, address and telephone number. Also included are the advertisements and business cards of firms and individuals desiring to make a more detailed presentation of their products or services. This directory represents reference advertising at its best and merits the attention of all buyers and sellers seeking sources of supply or a market for goods. In a busy and diversified community, the necessity of having this kind of information up-to-date and immediately available is obvious. The Directory is a common intermediary between buyer and seller and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL DIRECTORY is the second major directory, printed on white paper. This directory intends to show the name, spouse's name, occupation, employer, address, designation of owner-occupied homes and telephone number of each adult resident. Also included is the name, official personnel, products and services, address and telephone number of business and professional firms in the city.

III. THE STREET ADDRESS DIRECTORY is the third major directory, printed on green paper. In this directory the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business firms are arranged in numerical order under the name of each street, and the names and spouses names of the householders, as well as the names of all adult residents are placed opposite the number. Business and professional firm names also appear at their appropriate numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, telephone numbers, new householder symbols, the length of residence up to 9+ years, and zip/postal codes.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major directory, printed on blue paper. This directory provides the name and address of the telephone subscriber when only a telephone number is known.

COMMUNITY PUBLICITY

The City Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence and as a business location.

The publishers appreciatively acknowledge those progressive business and professional firms who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

In addition, the city boasts an elegant and historic East Side area and is the home of Brown University, one of the finest institutions of higher

The Capital Center Project in Providence involving \$100 million in public funding and up to a billion dollars in private spending is the largest construction project in the history of Rhode Island, and one that will result in the development of a 60-acre site between downtown Providence and the State Capitol.

Access and circulation improvements for Capital Center and downtown Providence include a \$50 million, eight movement freeway interchange and the relocating of two rivers.

When all public improvements have been completed, 11 prime sites will be available for development. It will eventually result in a total of approximately 3.5 million square feet of commercial, residential and office space.

Providence boasts a new \$32 million railroad station in the Capital Center, completed in 1986. Railroad tracks were rerouted to the southeast of the State House, making the old site available for conversion to stores, offices, hotels and condominiums.
